About Company

Created with the aim to bring people and resources together, Logicbox It Solutions strives to make digital marketing easy and accessible for all. Today, digital marketing is one of the most powerful tools available to promote growth in your business through a number of tools including social media channels such as Facebook, Instagram, and LinkedIn. Despite that, many businesses struggle with engagement patterns on their businesses' social media handles.

At Logicbox It Solutions, we strive to bridge that gap by creating customized strategy for every business that fits its needs and brings real-time results without spamming and bots. Our dedicated and professional team of individuals is trained and equipped to cater to your needs.

We believe in creating moments of pride for you – moments when you excel over your competitors, moments when you experience a peak in your engagement ratio and sales and moments when you get equipped with new skills and learning acquired through our training sessions.

Today, when social media has entered a highly competitive era, survival of the fittest is the key to success in the virtual and smart world. At Logicbox It Solutions, we believe in turning your business into a brand – an active brand that has eyes and ears, that speaks with its customers, listens to feedback and acts on demand. We believe in your business and help you take it to the pinnacle of success. We can make success possible for you so join hands with us and let us together embark on a memorable journey of growth and triumph.

Message From The CEO

Rohit Mawale

After spending the past ten years establishing Logicbox It Solutions, I feel privileged to be writing this message as the Chief Executive Officer. This is a special time in our company's history as we celebrate the completion of half a decade. For the entrepreneurs out there, you know how much it takes to get here. I am grateful for all the love, support, and understanding we receive constantly; it's with the motivation that our well-wishers provide us that we are at such a great place today. Our evolution, year on year to introduce new business units and routes towards merging insights and intelligence grows out of the potential we see in new markets and the need for independent leaders to drive them.

We made commitments towards providing exceptional delivery in an insightful manner to the industry and along the way, have strengthened our core values towards ensuring quality in everything we do, guidance by example, honesty and simplicity and a focus on an excellent culture that passes on to our clients and teams.

Looking ahead, we are focused on accelerating the execution of our expansion strategy while abiding to build on the strength of our brand in helping our clients share knowledge and create innovation, and in bringing positive change to the communities in which we work and live. I am incredibly excited about this journey and truly believe the best of Logicbox It Solutions is yet to come.

Why Choose Us?

Attention to Details It's our attention to the small stuff, scheduling of timelines and keen project management that makes us stand out from the rest. We are creative, while keeping a close eye on the calendar and your budget

A Plan for Success

You want results. We have found that the best way to get them is with up front research – of your company, competitors, target market and customer psychographics. Only after we fully understand you and your customers, do we recommend a plan of attack.

Creativity

We bring our diverse background of advertising, design, branding, public relations, research and strategic planning to work for your company. Not only will your materials look great – they will get results.

Yes, we have won awards for our work. But we don't create concepts in a vacuum – they fit into the standards of your industry. And once we have a total picture of your company, its target audience and goals, we'll create a detailed plan – that also includes a commitment to stay on budget and on deadline.

Experts Only

First Impressions is comprised of specialists with corporate and agency experience that hail from various backgrounds. As such, First Impressions will never assign second-tier (or gasp! third tier!) support staff to any account.

Pricing

Our prices are competitive and fair. There are no surprise bills. Any unexpected or additional expenses must be pre-approved by you. That's how we would like to be treated, and that is how our clients are treated.

Meet our Team

Deepika Mawale

VP Finance, Operations & Development

Deepika ensures our projects and client engagements over-deliver every single time. She is dedicated to continuous improvement and implementing new and innovative solutions on an iterative basis. She believes that success builds upon success, and help drives our team forward as our company expands and grows. She also participates in many roles in company but mostly strategy, sales, and operations. Deepika oversees all client accounts and actively participates from a high-level to ensure the customer's success. When it comes to the future and growth of your business, Deepika thinks ten steps ahead and has your strategy planned for the next few years.
